DAY 1 · MAY 30th

9.45 **Introduction**
G. La Canna, L. Torracca

Cutting-edge Clinical Imaging for Hypertrophic Myocardial Phenotypes

Chairs: *F. Cecchi, S. Carerj*

10.15 **Nosography and clinical work-up**
G. Sinagra

10.30 **Electrocardiography**
G. Limongelli

10.45 **Echocardiography**
G. La Canna

11.00 **Nuclear Medicine Imaging**
R. Giubbini

11.15 **Magnetic Resonance Imaging**
L. Monti

11.30 **Computed Tomography**
A. Esposito

Discussion

12.00 **Lecture: Clinical impact of genetic testing in HCM**
I. Olivotto

LUNCH

Flash-light in HCM

Chairs: *I. Olivotto, P. Presbitero*

14.00 **Apical / mid ventricular HCM: a challenging phenotype**
F. Cecchi

14.15 **Exercise response in HCM**
G. La Canna

14.30 **The trap of fasting echocardiography in HCM**
G. La Canna

Discussion

15.00 **Clinical case: A symptomatic HCM patient: usefulness of invasive exercise against isoproterenol**
S. Caravita

COFFEE BREAK

Hypertrophic Cardiomyopathy: beyond the “hypertrophy”

Chairs: *I. Olivotto, G. Limongelli*

- 15.45 **Epigenetic perspective**
F. Cecchi
- 16.00 **The burden of myocardial
bridging and its role
in sudden death**
G. Thiene
- 16.15 **Microvascular impairment**
F. Cecchi
- Discussion**

Hypertrophic Myocardial Phenocopies: diagnostic work up and treatment

Chairs: *A. Moreo, E. Biagini*

- 16.45 **Fabry disease**
F. Cecchi
- 17.00 **Amyloidosis**
S. Perlini
- 17.15 **Storage diseases**
G. Limongelli
- 17.30 **Neoplastic diseases**
L. Monti
- 17.45 **Iron Overload**
G. Todiere
- Discussion**

DAY 2 - MAY 31st

Hypertrophic Cardiomyopathy: Obstructive phenotype

Chairs: *S. Severino, U. Conti*

- 9.00 **Mechanisms of left
ventricular obstruction**
G. La Canna
- 9.15 **Fluctuating and inducible left
ventricular obstruction**
I. Scarfò
- 9.30 **Perspective on
pharmacological treatment**
I. Olivotto
- Discussion**

Obstruction treatment targeting septal hypertrophy

Chairs: *S. Paparoni, D. Pavan*

- 10.00 **Surgical septal myectomy:
echo planning**
G. La Canna
- 10.15 **Surgical septal myectomy:
technique**
L. Torracca
- 10.30 **Alcohol septal ablation:
echo planning**
G. La Canna

10.45 **Alcohol septal ablation: technique**

D. Regazzoli

Discussion

Obstruction therapy targeting mitral valve

Chairs: *C. Zito, L. Torracca*

11.15 **Mitral valve phenotype in HCM**

I. Olivotto

11.30 **Mitral surgery therapy**

P. Ferrazzi

11.45 **Mitral Edge-to-Edge: towards Mitraclip frontier**

G. La Canna

Discussion

LIVE in BOX Clinical cases

Chairs: *F. Cecchi, F. Antonini-Canterin*

12.15 **Step-by-step Echo-guided surgical myectomy**

I. Scarfò, L. Torracca

12.30 **A case of double guilt of Mitral Valve in HCM**

T. Formisano, L. Torracca

12.45 **A case of Percutaneous Edge-to-Edge with MitraClip**

G. La Canna, L. Torracca

13.00 **A challenging case of aortic stenosis**

I. Scarfò, D. Regazzoli

13.15 **A paradoxical exercise response following surgical myectomy**

S. Caravita

LUNCH

14.30 **Lecture: Introduction**

L. Torracca

Are we ready for “early surgical myectomy”?

O. Alfieri

Phenocopies of left intraventricular obstruction

Chairs: *V. Montericcio, M.T. Librera*

14.45 **SAM-related obstruction following surgical mitral valve repair**

L. Torracca

15.00 **Neo-LVOT obstruction: risk and remedy**

N. Buzzatti

15.15 **Tako Tsubo syndrome**

R. Citro

15.30 **Dynamic left ventricular obstruction following aortic valve replacement**

I. Scarfo'

Discussion

Focus on the arrhythmogenic phenotype in HCM

Chairs: *A. Fumero, M. Cecconi*

16.00 **Left atrium reserve concept**

G. La Canna

16.15 **Medical treatment of atrial fibrillation: from the antiarrhythmic to anticoagulant agents**

M.R. Conte

16.30 **When atrial fibrillation becomes obstinate**

S. Benussi

16.45 **Is CMR a reliable arrhythmogenic predictor?**

L. Monti

17.00 **Sudden death: risk stratification, "burned-out" phenotype**

F. Cecchi

17.15 **ICD/PACING indications and drawbacks**

F. Cecchi

Discussion

Circumstances at risk in HCM

Chairs: *M. Nardi, G. Corrado*

17.45 **Pregnancy**

G. La Canna

18.00 **Sports activity**

A. D'Andrea

18.15 **Non-cardiac surgery**

F. Guarracino

18.30 **Anesthesia**

P. Crescenzi

Discussion

Clinical-practice flash

Chairs: *I. Caso, E. Angelini*

19.00 **Clinical case 1**

Clinical case 2

Clinical case 3

Clinical case 4
